COMMONWEALTH BUREAU OF CENSUS AND STATISTICS

FEBRUARY, 1964

PREPARED UNDER INSTRUCTIONS FROM THE RIGHT HONORABLE THE TREASURER

88

- avoid as a INTRODUCTION

This publication lists the most recent publications issued by the Central and State Offices of the Commonwealth Bureau of Census and Statistics. It is in two parts, Part A relating to the Central Office, and Part B to the State Offices. Part A is divided into (i) a List of Publications and (ii) a Subject Index. No index is provided for the State publications.

Publications listed herein are grouped into General Publications and Other Publications, and in the case of Central Office a separate group of Population Census Publications is added. General Publications contain statistics on all major topics. They are, in the main, printed publications which contain statistics on a wide variety of subjects. Other Publications comprise reports, bulletins, statements, surveys, etc., which deal mainly with particular fields or subjects. Except for the Central Office annual printed bulletins and the Parts of the State Statistical Registers, they are listed alphabetically according to topic and frequency of issue. They are of three kinds—

- (i) Printed publications (mainly annual) containing detailed tables of the main statistics collected (included in this group are the State Statistical Registers);
- (ii) Supplementary publications in mimeographed form (annual, half-yearly, quarterly and monthly) which advance the statistics contained in (i), provide further detail, or issue new statistics;
- (iii) Preliminary reports of special surveys or censuses, such as the Retail Trade and Motor Vehicle Censuses, in mimeographed form.

Population Census Publications have been issued in respect of each Commonwealth Census taken from 1911 to 1961, namely 1911, 1921, 1933, 1947, 1954 and 1961, and results of the 1961 Census are currently being issued in printed and mimeographed form. Only the publications issued for the 1954 and 1961 Censuses are listed in the following pages, but details of publications for earlier Censuses are available on request.

This publication relates only to current and recent issues of Bureau publications, the most recent issue of each annual publication being shown in parenthesis. For a complete list, see § 6. Statistical Publications of Australia of Chapter XXIX. of Commonwealth Official Year Book No. 49—1963, page 1248.

Central Office publications issued during each month are listed inside the back cover of the *Digest of Current Economic Statistics* and on the back cover of the *Monthly Review of Business Statistics*; similar arrangements exist in corresponding publications for State Office issues. A monthly statement of publications issued by the Central Office and State Offices is available from the Commonwealth Statistician, Canberra.

How to obtain Bureau publications

Central Office.—Publications for which prices are shown in Part A of this list may be bought direct from the Government Printer, Canberra and the Office of the Deputy Commonwealth Statistician and the Commonwealth Sub-Treasury in each capital city, or they may be ordered from the leading booksellers in the principal cities of Australia. A standing order may be placed with the Government Printer, Canberra, with whom a credit account may be arranged. The prices quoted inclusive of postage refer in general to postage within Australia and to other Commonwealth countries, but postage is higher to foreign countries, and for the Commonwealth Year Book to the United Kingdom and other Commonwealth countries (23s. 11d.). A limited number of copies of these publications are available from the Commonwealth Statistician for distribution, free of charge, to members of Parliament, Commonwealth and State Government Departments, public bodies, and publicists.

Publications with no price shown are available in limited numbers free of charge upon application to the Commonwealth Statistician, Canberra, with whom regular despatch may be arranged. Occasional copies are available from the offices of the Deputy Commonwealth Statisticians.

When applying for publications, the title and the reference number shown in the list should be quoted.

State Offices.—Publications in Part B are available from the Deputy Commonwealth Statisticians in the several States; those with no price shown are available free of charge.

Apart from the issue of publications, each Office provides information in response to individual requests. In certain cases where data must be specially extracted and a regular return is required, a charge is made for supplying this information.

The addresses and telephone numbers of the several Offices are as follows:—

		Address.	Telephone No.

II. SUBJECT INDEX

This index is designed to show in which Bureau publications information on various subjects is to be found, and to serve as an aid in the selection and ordering of the appropriate publication required. The index is not intended as a comprehensive index of commodities or items, and items of production and of oversea trade, for example, are therefore largely omitted. The table of Contents or Index to the relevant publication itself provides this further reference.

Because of the comprehensive range of statistics contained in the *Official Year Book of the Commonwealth of Australia* and in the *Pocket Compendium of Australian Statistics*, no references are given to them in this index. Each of these publications contains a detailed index, and the former should be regarded as the principal general statistical reference work of this Bureau.

Where more than one reference to a subject is given, the chief reference, wherever it has been possible to determine it, is indicated by bold type. Two or more references to a subject so indicated signify major, and approximately equal, importance.

No reference is given to the Northern Territory and the Australian Capital Territory Statistical Summaries, which contain a comprehensive range of statistics for those Territories.
